

## Material Safety Data Sheet

Product	FilaSorb™ Felt		
Manufacturer	Acoufelt Pty Ltd Adelaide – Level 8, 26 Flinders Street, Adelaide SA 5000 Sydney – Australia Square, Level 43, 264 George Street, Sydney NSW 2000 Phone – +61 1800 626 462		
Material	Non woven polyester fiber thermo bonded compressed felt		
Composition	Component	CAS Number	Content %
	Polyethylene Terephthalate	25308-59-9	100%
Hazards Identification	Based on available information, this material is not classified hazardous		
First Aid Measures	Eye contact: Not applicable Skin contact: Not applicable Inhalation: Not applicable Ingestion: Not applicable		
Fire-Fighting Measures	Suitable extinguishing media: In case of fire, use water spray, dry chemical, carbon dioxide (CO2) Unsuitable extinguishing agents for safety seasons: None Explosion danger: None Equipment for fire-fighters: Follow the general precautions rules Specific hazards: Combustible product in melted state Fire propagation risk due to melted polymer pieces Specific hazards: In case of fire do not breathe fumes or combustion gases. Fire fighters must wear self contained breathing apparatusand full protective suit. Dispose of the fire waste and contaminated water according to the law		

in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to		
Storage: Keep the product away from heat source, sunlight and flame   Exposure Controls/ Protection Personal protective equipment: Wear standard safety equipments.   Physical and Chemical Properties Melting point (°C): 110 + 5 Flash point (°C): Not applicable Ignition temperature (°C): Not applicable Danger of explosion: Product is not explosive pH value: Not applicable   Stability and Chemical Properties Chemical stability: At normal condition Condition to be avoided: Extreme heat Dangerous reactions: No dangerous reaction if stored and handled as prescribed Products of decomposition: No information available   Toxicological Information Toxicity: Not toxic if used according to specifications Skin contact: No irritant effects Eye contact: No irritant effects Carcinogenicity: No carcinogenic   Ecological Information Biodegradability: Not biodegradable   Disposal Information Waste: Classified as not dangerous Further indications: Disposal according to laws and local rules   Transport Information Marine transport: Classified as not dangerous Air transport: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerous   Regulatory Information Follow all regulations in your country   Other Information The information given is based on the current level of information available in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to		Environmental protection: No specific measures required Environmental precautions: Do not inhale combustion gases
Protection   Personal protective equipment: Wear standard safety equipments.     Physical and Chemical Properties   Melting point (°C): 110 + 5 Flash point (°C): Not applicable Ignition temperature (°C): Not applicable Danger of explosion: Product is not explosive pH value: Not applicable     Stability and Chemical Properties   Chemical stability: At normal condition Condition to be avoided: Extreme heat Dangerous reactions: No dangerous reaction if stored and handled as prescribed Products of decomposition: No information available     Toxicological Information   Toxicity: Not toxic if used according to specifications Skin contact: No irritant effects Eye contact: No irritant effects Carcinogenicity: Not biodegradable     Disposal Information   Biodegradability: Not biodegradable     Disposal Information   Waste: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerous Air transport: Classified as not dangerous Air transport: Classified as not dangerous Regulatory Information     Regulatory Information   Follow all regulations in your country     Other Information   Follow all regulations in your country	Handling and Storage	
Properties Flash point (°C): Not applicable Ignition temperature (°C): Not applicable Danger of explosion: Product is not explosive pH value: Not applicable   Stability and Chemical Properties Chemical stability: At normal condition Condition to be avoided: Extreme heat Dangerous reactions: No dangerous reaction if stored and handled as prescribed Products of decomposition: No information available   Toxicological Information Toxicity: Not toxic if used according to specifications Skin contact: No irritant effects Carcinogenicity: No carcinogenic   Ecological Information Biodegradability: Not biodegradable   Disposal Information Waste: Classified as not dangerous Further indications: Disposal according to laws and local rules   Transport Information Marine transport: Classified as not dangerous Air transport: Classified as not dangerous Air transport: Classified as not dangerous   Regulatory Information Follow all regulations in your country   Other Information The information given is based on the current level of information available in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to		Personal protective equipment: Wear standard safety equipments.
PropertiesCondition to be avoided: Extreme heat Dangerous reactions: No dangerous reaction if stored and handled as prescribed Products of decomposition: No information availableToxicological InformationToxicity: Not toxic if used according to specifications Skin contact: No irritant effects Eye contact: No irritant effects Carcinogenicity: Not carcinogenicEcological InformationBiodegradability: Not biodegradableDisposal InformationWaste: Classified as not dangerous Further indications: Disposal according to laws and local rulesTransport InformationMarine transport: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerous		Flash point (°C): Not applicable Ignition temperature (°C): Not applicable Danger of explosion: Product is not explosive
InformationSkin contact: No irritant effects Eye contact: No irritant effects Carcinogenicity: No carcinogenicEcological InformationBiodegradability: Not biodegradableDisposal InformationWaste: Classified as not dangerous Further indications: Disposal according to laws and local rulesTransport InformationMarine transport: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerousRegulatory InformationFollow all regulations in your countryOther InformationThe information given is based on the current level of information available in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to		Condition to be avoided: Extreme heat Dangerous reactions: No dangerous reaction if stored and handled as prescribed
Disposal InformationWaste: Classified as not dangerous Further indications: Disposal according to laws and local rulesTransport InformationMarine transport: Classified as not dangerous Road/Rail transport: Classified as not dangerous Air transport: Classified as not dangerousRegulatory InformationFollow all regulations in your countryOther InformationThe information given is based on the current level of information available in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to		Skin contact: No irritant effects Eye contact: No irritant effects
